# Fengliang Tang

School of Architecture · Tianjin University
Department of Urban and Rural Planning

tang_fengliang@tju.edu.cn · Academic website · ORCID 0000-0001-6671-1217

## RESEARCH

Urban and regional resilience, flood risk and coordinated recovery, spatial equity in shared mobility, and AI for urban planning.

## EDUCATION

**Tianjin University** · Doctoral studies in Resources and Environment, School of Architecture (since 2021)

**University College London** · MRes in Interdisciplinary Urban Design (2019-2020)

## SELECTED PUBLICATIONS

**Tang, F.**, Zeng, P., Guo, Y., Shen, Y., Wang, L., Liu, K., Zhang, L. (2025). Decoding the spatiotemporal dynamics and driving mechanisms of ecological resilience in the Beijing-Tianjin-Hebei urban agglomeration: A deep learning approach. *Urban Climate*. DOI

**Tang, F.**, Guo, Y., Zhang, L., Liu, K., Shen, Y., Yu, J., Zhou, S. (2026). Unequal streets, unequal journeys: The hidden mechanisms of shared mobility. *Travel Behaviour and Society*. DOI

**Tang, F.**, Zeng, P., Wang, L., Zhang, L., Xu, W. (2024). Urban Perception Evaluation and Street Refinement Governance Supported by Street View Visual Elements Analysis. *Remote Sensing*. DOI

Yang, T., Yun, Y., **Tang, F.**, Zheng, X. (2026). A Multi-Source Geospatial Framework for the Evaluation of Urban Flood Resilience Under Extreme Rainfall: Evidence from Chongqing, China. *Water*. DOI

## RESEARCH PROJECTS AND ACADEMIC SERVICE

**Beijing-Tianjin-Hebei Flood Resilience Dashboard.** Regional resilience, flood-risk diagnosis, and coordinated recovery. Open dashboard.

**Research projects.** National Key R&D Program research on coordinated recovery in urban systems (2023YFC3805204) and Tianjin Science and Technology Program research on metro station-area regeneration.

**Peer review.** Sustainable Cities and Society, Habitat International, Building and Environment, and Journal of Transport Geography.

**Selected presentations.** 16th International Association for China Planning Annual Conference and 2022 China Annual National Planning Conference.

**Methods and tools.** GIS, Python, spatial network analysis, and interpretable machine learning.
